

FINANCE AND TRADE.

OFFICE OF THE DAILY APPEAL,
TUESDAY, July 25, 1872.

FINANCIAL.
The market was moderately dry yesterday, and more or less except the usual routine business transpired. At the banks there was a fair money-fairness and discounting, but nothing of note, except for prime business paper.

On the street the rates paid were from 12 to 2 per cent. per month. Seaman's anything was done in exchange, and nothing but the usual discounting was done by one of the National banks at par; another said \$25,000 over the counter at a premium of 12 per cent. per month. Gold amounts, gold improved in value in New York, the advance being to 114½ per dollar, buying rates were the same as in previous days 114½. Local investments were slightly higher, and our brokers, who are generally willing to make an offer upon the leading securities, had a few offers of prices at which to buy or sell.
